

STAGE PLOT

FRONT OF STAGE

2 Guitars (left/right)
1 Bass (DI)
1 Drummer
Bassist does vocals

Both guitars run directly into a stage cabinet (house or otherwise). If necessary, Joe's Kemper (stage left) can send a DI signal to the desk.

Debs' bass generally runs into a Tech21 Sansamp that can be DI'd to the desk. If there is a house amp set-up, he will parallel output into the house amp.

Only one vocal mic needed, but if there's options for a couple around the stage, keep them all level so Debs can use all of them.

MONITORS

Joe needs himself and the drums.

Ed needs Joe's guitar and the drums.

Jesse needs Ed's guitar and the bass.

Debs needs vocals (low), bass, drums and Ed's guitar.
